XO

AIM AND OUTLINE OF THE MAB

Content		Briefer
1	Introduction	XO
2	Review of Situation	CJOPG/CJ2
3	Higher Headquarters Direction and Guidance	CJOPG
4	Mission Analysis	CJ5
5	Operational Design	CJ5
6	Initial Force / Capability Estimate	CJ5
7	Command and Control	CJ5
8	Operational Level CCIR	CJOPG
9	Critical Operational Requirements	CJ5
10	Critical Timings	XO
11	Requests to be Submitted to SACEUR / SHAPE.	CJOPG
12	Proposed Commander's Planning Guidance	CJOPG
13	Conclusion	CJOPG
14	Approvals	CJOPG
15	Seek from Commander	CJOPG

SACEUR tasked with developing operational plans for a potential NATO-led Crisis Response Operation in Indonesia.

1. Focus on immediate requirements for deploying the NATO Combined Joint Task Force (CJTF) and coordinating with national authorities in Malaysia and Singapore.
2. Risks to **NATO citizens**, including stranded foreign citizens in Sumatra.
3. Emphasis on **restoring international peace and security**, preventing conflict escalation, ensuring citizen safety and maintaining open shipping lanes.
4. Integration of military operations with diplomatic, information, and economic efforts to deter aggression and improve stability in Sumatra for humanitarian assistance and counterinsurgency.
5. Strategic risk assessment highlights potential risks such as government collapse, Chinese military intervention, ISIL interference, and failure in conflict resolution with non-military actors.
6. Political guidance on operating within international law, cooperation with host nations and international organisations, compliance with UN treaties, and minimising civilian casualties and collateral damage.

Friendly Forces

(1) Goals & Objectives

- a. Restore international peace and security in the Malacca Strait region.
- b. Prevent escalation and widening of the conflict.
- c. Allow the flow of HA.
- d. Ensure safety of citizens from NATO member nations.
- e. Ensure open international shipping lanes for uninterrupted access to the region

(2) Primary & Supporting IoP

- a. **Building partner readiness; Leveraging the U.S. "South China Sea Initiative"**
- b. **Freedom of Navigation and Overflight Operations**
- c. **Strategic Basing and Operational Flexibility**
- d. **Information Sharing and Maritime Domain Awareness**

(3) System Interactions, Interdependencies, Influences & Vulnerabilities

- a. Information sharing and maritime domain awareness contributes to a common operating picture
- b. Vulnerability to changes in U.S. and UK policies or priorities

(4) Military & Other Capabilities

- a. Strong military capabilities and interoperability with member states and partners
- b. Limited Regional Influence: challenge to engage some regional partners; Indonesia, Vietnam, & Malaysia

So What: NATO should utilise partner readiness and strategic locations to restore scety to Malacca Strait, ensure open shipping lanes, being cognisant of overall US & UK interests.

(1) Goals & Objectives

- a. **Restore GoIND rule in Sumatra.**
- b. **Control the Malacca Strait and major oil and gas reserves and infrastructure.**
- c. **Contain the IRS sufficiently to restore security, end ethnic violence, and open political dialogue.**
- d. **Obtain international military assistance to rebuild Indonesian forces in Sumatra and counter internal and external threats.**

(2) Primary and Supporting Instruments of Power

- a. Economic power: leverage economic strength, petroleum, LNG exports & trade ports, to influence regional actors & system
- b. Maritime Resources: control over major oil and gas fields, oil refineries, and LNG plants in Sumatra - leverage in regional energy markets.

(3) System Interaction, interdependencies, influences & vulnerabilities

- a. Economic Influence: economic power, particularly in sectors like petroleum and LNG exports
- b. Ethnic and Cultural Diversity: multicultural society, diverse ethnic groups & languages present challenges in governance and decision-making.

(4) Military & other capabilities

- a. Control over military equipment & forces in Sumatra prior to insurgency mean IND have strong foundation for Def & Scty ops.
- b. Competing priorities among different ethnic groups & regions may impact capacity to effectively use force & info in a coordinated manner

So What: IND require NATO/Int support to control MS and can leverage previous deployment in Sumatra and economic/resource capability in their efforts, being cognisant of the challenge of competing ethnic groups in IND/region.

OPFOR

IRS

(1) Goals & Objectives

- a. The ISR desire is to create an autonomous ethnically pure SUMATRA state.

(2) Primary & Supporting IOP

- a. Experienced Leadership & Powerful Personality - Gen Hassan (Committed Sumatran Nationalist).
- b. Popular support in North Sumatra.
- c. Capable & experienced Guerrilla Forces.

(3) System Interactions, Interdependencies, Influences & Vulnerabilities

- a. Economy dependent on imports/exports – particularly POL export for long-term viability.
- b. Rebel SLOC'S & LOC'S vulnerable to interdiction.
- c. International isolation.
- d. Limited C2.
- e. Limited SAM'S/AAA and IADS.
- f. Limited night capability.
- g. Older equipment and limited mobility.
- h. Electrical power grid vulnerable.

(4) Military & Other Capabilities

- a. Naval piracy ops w/plausible deniability.
- b. 95% of Ind. Fces. stationed on Sumatra.
- c. Rebel Army 78,000 pers (Defensive guerrilla war).
- d. KODAM 1 - 40,000 ground forces (local territorial reservists with CDCMs).
- e. Air Force – Limited fighter aircraft, 30 x SAMs, 3x Rapier Systems & 3 x Roland SAM.
- f. Navy – 20,000 pers (6,000 Marine Commando), 30 x C-802 CDCMs, 2,000 mines, mix of radar systems, vessels,
- g. 2 x Subs,
 - a. ISR & MPA Air Capability,
 - b. 5 x frigates, 3 x warships, 2 x destroyers, 8 x corvettes, 2 x fast boats.

So What: Formidable OPFOR with offensive and defensive capabilities.

ISIL / AQ / Jemaah Islamiyah (JI)

(1) Goals & Objectives

- a. **Terrorist Elements used by IRS to attack international interests in the region.**

(2) Primary & Spt Instruments of Power

- a. **Loyalty to IRS.**
- b. **Links to North Korea and China.**
- c. **Capturing key terrain and infrastructure in these provinces to strengthen their base of support, support further discontent and separatist motivations.**
- d. **Cause widespread unrest and instability**
- e. **Ability to limit Indonesian military freedom.**
- f. **Popular support in North Sumatra.**

(3) System Interactions, Interdependencies, Influences & Vulnerabilities

- a. Rebel SLOC'S & LOC'S vulnerable to interdiction.
- b. Limited C2.
- c. Limited known equipment..
- d. Older equipment and limited mobility

(4) Military & Other Capabilities

- a. Precise number is unknown – likely less than 1000.
- b. 25% deployed throughout the Indonesian Archipelago actively planning and conducting sabotage and terrorist type attacks.
- c. Illegal fishing.
- d. Human trafficking.
- e. Illicit drug trafficking.
- f. Links with other extremist groups Abu Sayyaf Group (ASG) and the Moro Islamic Liberation Front (MILF).

So What: Ability to conduct asymmetric attacks against coalition and international organisations.

Neutral

	ACEH Loyalists	GAM Rebels	IOs/NGOs
Pol Goals and Objs-	Loyalist forces/GAM will allow/facilitate CTF forces in Aceh	Violently opposed to IRS. GAM will allow/facilitate CTF forces in Aceh	Assumed to be impartial
Primary and Supporting Instruments of Power-	Has trust of people in ACEH	Loose internal leadership	Not applicable
System Interaction, interdependencies, influences & Vulnerabilities-	No single leader; each battalion is regionally oriented working with local civilian leadership	Distrustful in GOI military but will operate in defence of Ache. Will only operate in Ache Provence	Humanitarian relief efforts by the UN and other international aid organisations are being interrupted by IRS attacks (although denied) on UN refugee centres, relief personnel and humanitarian aid convoys.
Military & other Capabilities-	Capable of limited defensive and security ops. Will need log support in all classes of supply	Operate in 30-man guerrilla groups	Not applicable other than they are a potential source of HUMINT

So What:

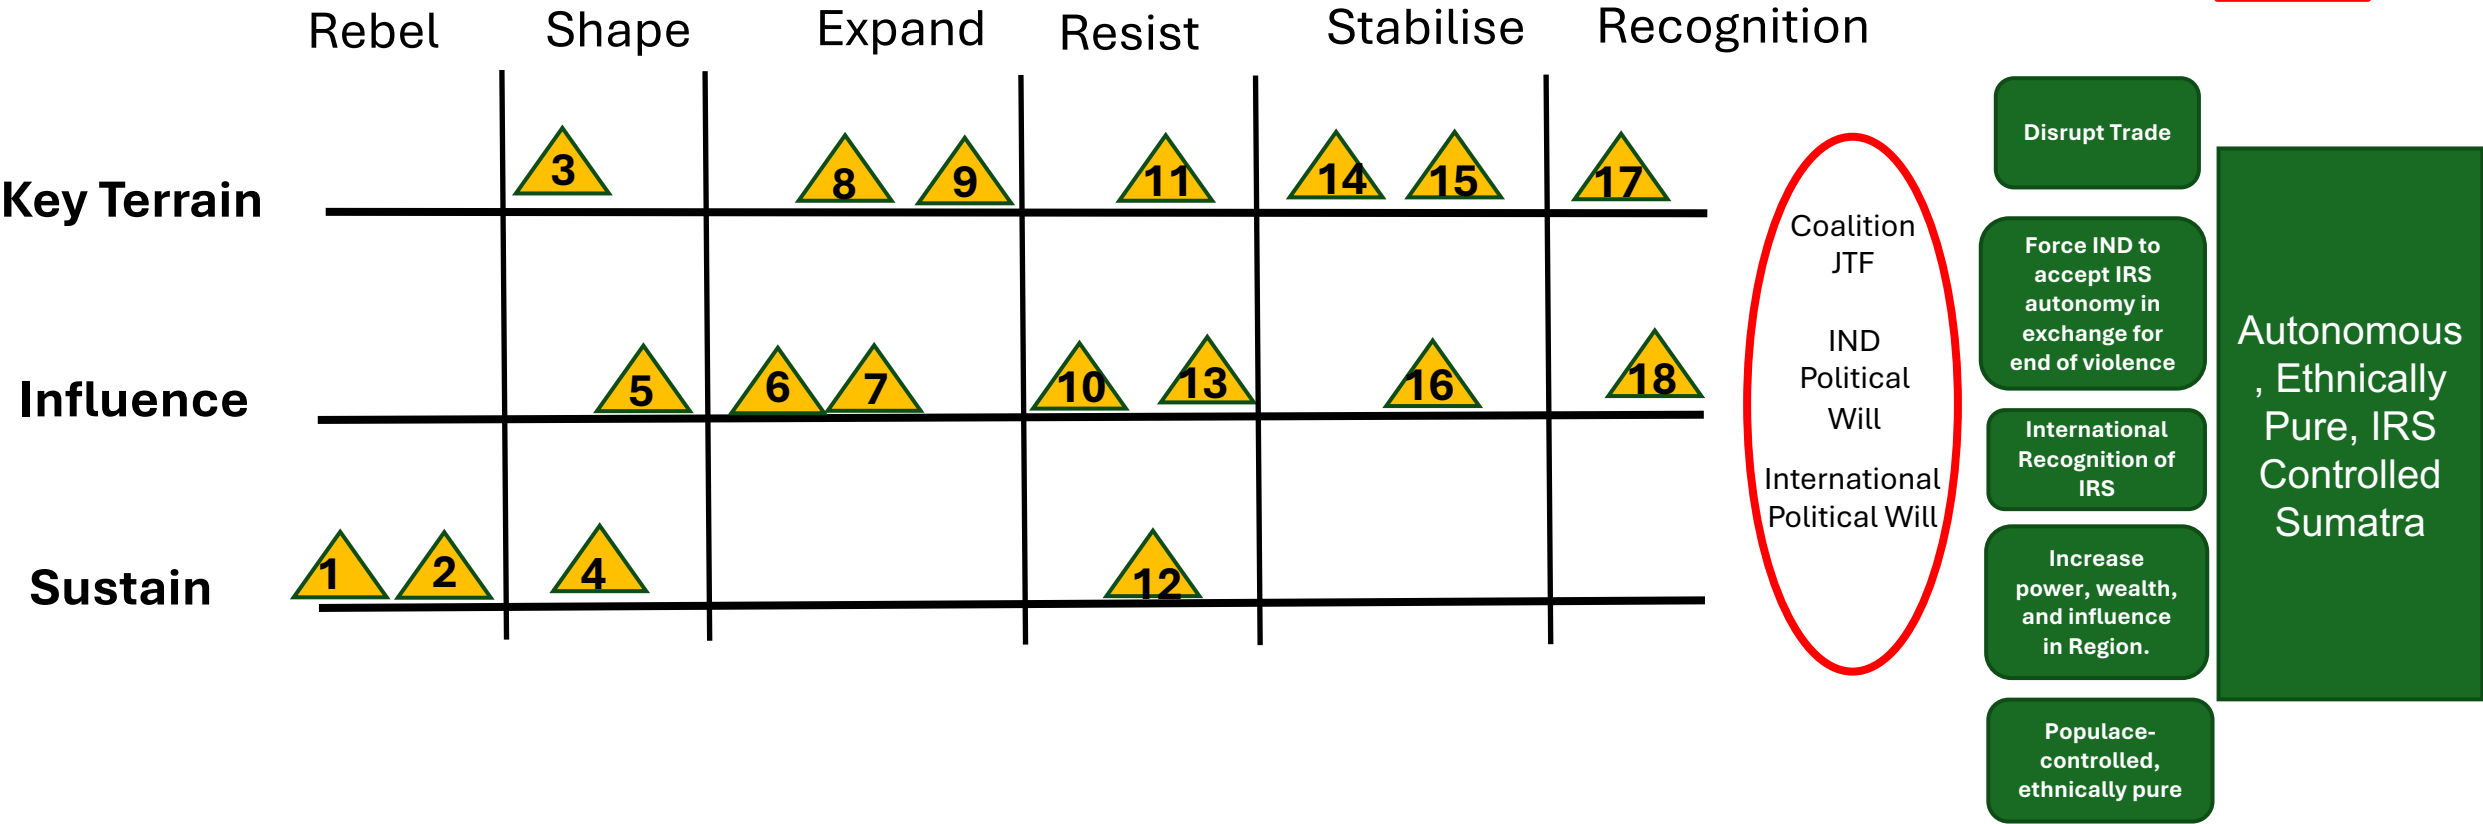

There is very limited information on ACEH Loyalist groups. They have a lack of unity and purpose. Their local support in Ache province may be useful.

GAM Rebels are susceptible to subversion. May be a useful actor within the Ache province but lack of discipline is a real concern with respect to operational planning

NATO operations will be planned and carried out under NATO command and control in close co-operation with host nations and international organisations operating in the region (SACEUR SA)

2. b (5) Possible Actions

IRS Operational Design

DCs:	1. Force Gen	3. FOM Achieved	6. IRS seen as legitimate	10. JTF Seen as illegitimate	14. CI services restored	17. IRS expands control
	2. Prepo Stocks	4. LOCs Set	7. IND seen as ineffective for governance	11. Coalition unable to est. FOC	15. IRS government funtional	18. Recognised as sovereign state
		5. IO sets Hatred of Intervening Forces	8. CI controlled	12. Economic expansion	16. Control of population est.	
			9. JTF Impeded	13. Intervening forces Dip/Mil forced out of Sumatra		

IRS – General CONOPS By Phase

Phase:	Phase 1	Phase 2	Phase 3	Phase 4	Phase 5	Phase 6
Purpose:	Preparation	SHAPE	EXPAND	RESIST	STABILISE	RECOGNITION
Starts:	Coup	Sumatran Gains Consolidation (NOW)	ATK into ACEH	CTRL of Sumatra	COALITION WITHDRAW	Sumatra Stablised
Ends:	Sumatran Gains Consolidation	ATK into ACEH	CTRL of Sumatra	COALITION WITHDRAW	Sumatra Stabilised	IRS Recognized as Sovereign State
Sub Sequencing (Effects, and Actions)	Organise Forces	Est. Cross Border FOM	IO Campaign evolution	ATK NATO LOCs	Sum CI and Trade routes restored on IRS terms	Reject intervention in sovereign space
	LNO w/ ISIL/AQ/CN	Est. LOCs	Create simultaneous asymmetric dilemmas for IND	Ramp up Cyber DoS and IO	Utilize HVTs to control MDO space	IRS Gov. functions in all IOP
	Prepo stocks from Rebels	IO Campaign	Offensive DoS Cyber IND Network	ISIL/AQ attacks on Coalition PODs	Assert IRS as legit	
	Initial ATK across sumatra	Close Sunda Strait	Harassment ATKs IVO straits	Prevent JTF FOC	Subversive minority defeated/relocated	
	ID IND Red Lines	Harassment ATKs in Malacca Strait.	CTRL Nat. Resource and exports	Trade disrupted in straits	Force Coalition capitulation	
DCs:	1. Force Gen	3. FOM Achieved	6. IRS seen as legitimate	10. JTF Seen as illegitimate	14. CI services restored	17. IRS expands control
	2. Prepo Stocks	4. LOCs Set	7. IND seen as ineffective for governance	11. Coalition unable to est. FOC	15. IRS government funtional	18. Recognized as sovereign state
		5. IO sets Hatred of Intervening Forces	8. CI controlled	12. Economic expansion	16. Control of population est.	
			9. JTF Impeded	13. Intervening forces Dip/Mil forced out of Sumatra		

5. IRS MLCOA

- a. **General Description:** IRS will use multidomain rebel forces and KODAM1 to achieve operational OJBs. IRS will seek to consolidate gains and reconstitute prior to expansion operation into ACEH. IO operations focus on delegitimising intervention forces and supporting IRS government.
- b. Sunda Strait will be closed to force trade to Malacca, which will be harassed from pirates/coastal missiles to highlight IND inability to control claimed TW. ATKs across MDO will increase as coalition intervention grows; ATKs on PODs and coalition forces from ISIL/AQ will be used to provide deniability (once utility is lost, they will overtly ATK).
- c. NATO civilians and foreigners will enjoy FOM so that IRS show legitimacy and are NOT seen as an aggressor toward the IC. ATKs on CI, Trade, and Coalition Forces will focus on breaking political will in IND and the international community to compel coalition governments to withdraw and concede to IRS claims. Violence will deescalate in the Straits of Malacca and Sumatra as concessions are made. End state finds international recognition for IRS Gov.

5. IRS MLCOA

b. Potential Operational Timeline:

SHAPE	EXPAND	RESIST	STABILIZE	RECOGNITION
Month 1 & 2	Months 3 & 4	Months 5 & 6	Month 7	Month 8+

c. Analysis

Advantages:

- i. Seizure & Retention of Initiative,
- ii. Geography; KODAM 1 already possesses >50% Northern SUMATRA and MEDAN,
- iii. Usage of capable proxy forces (deniability), Coastal defence cruise missiles (ATK), Naval piracy ops w/plausible deniability.

Disadvantages:

- i. Geography
- ii. Potential for other Actor Defection, Al-Qaeda/IRS relationship is one of convenience/pragmatism
- iii. SLOCs & LOCs vulnerable to interdiction
- iv. Potential weaknesses in own C2.

d. Assessment of Opposing (NATO) COAs:

OPFOR (NATO) will most likely **DEPLOY rapidly, INFLUENCE, SHAPE & FIGHT.**

- a. **General Description:** IRS will use all available forces and allies to achieve operational OBJs. IRS will seek to **rapidly transition into offensive operations in ACEH**. IRS will seek to utilise the criminal networks, pirates, and any **assistance from NK/CHI** to destabilise coalition efforts to establish PODs, LOCs, and C2 (particularly EW/CYBER DoS attacks on C2 and harassment attacks on LOG infrastructure).
- b. Heavy focus from IRS **expanding ties with ISIL/AQ** in order to build strong and long-lasting partnerships in Sumatra, with realized effects in the northern region. IO Campaign/Psyops will focus on **ACEH Loyalist/GAM Rebels against the intervening coalition**. Naval Forces will close Sunda Strait and allow disruption attacks in Malacca Strait as per MLCOA. Significant guerilla warfare used to create Coalition MASCAL events as often as able. HVTs will be more frequently exposed IOT deny coalition Air/Sea capability with the aim of preventing FOC.
- c. ATKs on CI, Trade, and Coalition Forces will escalate in frequency and audaciousness as objectives are NOT met and remain focused on breaking political will in IND and the International Community to compel Coalition Govs to withdraw and concede to IRS claims. If OBJs are rapidly deteriorating, IRS will seek to expand to **overt attacks on trade, oil/gas infrastructure, and ethnic minority population. NATO civilians and foreigners will be kidnapped and held hostage IOT compel NATO to avoid direct action**. Violence will deescalate in the Straits of Malacca and Sumatra as concessions are made. End State finds international recognition for IRS Gov.

5. IRS MDCOA

b. Potential Operational timeline

SHAPE	EXPAND	RESIST	STABILIZE	RECOGNITION
Month 1	Month 2	Month 3-4	Month 4-6	Month 7

c. Analysis

Advantages:

- i. Effective disruption of coalition efforts,
- ii. Strong partnerships with terrorist groups; ISIL/AQ
- iii. Mass casualty of Coalition Forces; fear, disruption, lost C2.

Disadvantages:

- i. Escalation of violence & international condemnation; may affect legitimacy.
- ii. Loss of Support from Ethnic Minority Populations.

d. Assessment of Opposing (NATO) COAs:

OPFOR (NATO) will most likely **DEPLOY** rapidly and gain some initial success, however the mass of asymmetric attacks and a deterioration in the situation will likely lead to a breakage in political will of coalition member nations.

NATO END STATE:

1. Establish a peaceful, stable, and secure region with each state's sovereignty secured within internationally recognised borders.
2. Prevent external aggression and threats to the region, respect human rights, and ensure the freedom of access to and from the region.
3. Provide humanitarian assistance to populations in need without interference and with the threat of violence.
4. Creating a **SASE** for displaced civilians and refugees to return home.
5. Ensuring the safety of NATO nationals and uninterrupted access to the region via international air and sea lanes.
6. Preservation and accessibility of energy reserves and infrastructure in the region.

NATO END STATE:

STRATEGIC NON-MILITARY OBJECTIVES

1. Economic Engagement: Assisting the Indonesian economy, particularly in the area of oil and gas enterprises.
2. Political Engagement: Facilitating political solutions in Indonesia to stabilise the region.
3. Civil Engagement: Ending the humanitarian crisis in Indonesia.

1. Military Strategic Objectives

- a. Restore security and stability in IND.
- b. Restore GoIND territorial integrity of Sumatra.
- c. Open international shipping lanes.
- d. Prevent escalation and widening of the conflict. Ensure freedom of movement for humanitarian assistance.
- e. Ensure the safety of NATO nationals.
- f. Ensure uninterrupted access to the region and its energy resources.

Mission Analysis

Factor	Deduction	Task/Conclusion
1. Natural Resources	1.1 Access to natural resources must be facilitated 1.2 Strategically important to rebels	1.1.1 Secure Access to Nat Resources (DC) 1.2.1 Deter En access 1.2.2 Vulnerable to En Attack (CV)
2. Terrain	2.1 Road/rail bridges necessary for rebel/NATO activity 2.2 Logs difficulty due to rugged terrain	2.1.1 NATO control of road/rail bridges required (Task) 2.2.1 Logs hubs required (DC) 2.2.2 Use of road/rail during wet season (constraint)
3. S/LOC's	3.1 Impact on Global trade 3.2 Piracy/Narcotics/Human Trafficking	3.1.1 Freedom of Nav achieved (DC) 3.1.2 SPOD's Secured (DC) 3.2.1 Interdiction Ops required (Task)
4. Foreign Nationals	4.1 Security of NATO Nationals	4.1.1 Nationals secured (DC) 4.1.2 FOM achieved

Factor	Deduction	Task/Conclusion
5. Language	5.1 300 languages/dialects makes comms difficult	5.1.1 Info campaign across all ethnicities (DC) 5.1.2 STRATCOM/PSYOPS campaign (DC)
6. Humanitarian Assistance	6.1 Safety & Security of IDPs	6.1.1 Conditions for HA enabled (DC) 6.1.2 FOM achieved (DC) 6.1.3 STRATCOM with IDPs (Task) 6.1.4 HA Logs supplies

So What: The factors outlined, and the associated DCs will create the conditions necessary to disrupt of IRS operations; reestablish internal security; deter external aggression; enable freedom of navigation and enable HA delivery and NEO evacuation.

CONSTRAINTS

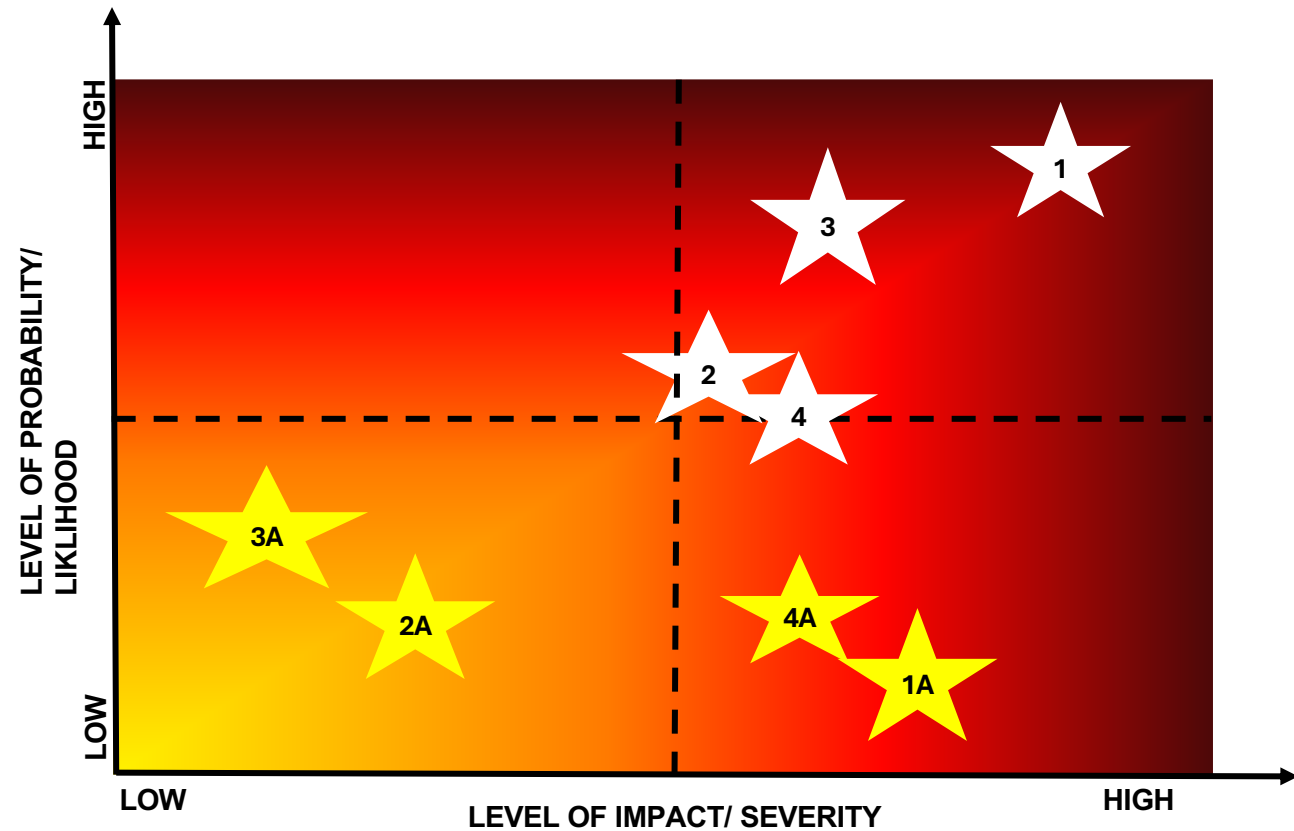

1. Cross borders without NAC approval
2. Evacuation will remain a national responsibility
3. Operation without coalition partner

RESTRAINTS

1. Wet Season – Impact on road/rail network/movement
2. Potable Water – waterborne disease
3. Language – communication with local populous
4. Compliance with Host Nation caveats

1. Tension with China will NOT increase in the region.
2. Partner Nations will be cooperative (Malaysia & Singapore).
3. Indonesia will secure their controlled area (Land & Strait).
4. Indonesia Military Forces will be FOC.

1. **Terror Activities** –
NATO/HA/NEO/FoM - Local Support, Deception Operations, PsyOps
2. **Collapse of Gov** –
NATO Collaboration, Gen Security - Early Support & Sustainment
3. **Disinformation**
Gen Pop, EN & Own Forces – Influence, PsyOps
4. **Sustainment**
Operational Sustainment - Land, Air Logs ability APODs SPODs FoM
5. **Tropical Disease** -
NATO Forces - Medical Support Role 3 Hospital within 2 hrs

So What: Once the mitigating factors are in place the risks are all below the threshold for acceptability

1. Credibility for NATO as a Regional Partner
2. Create conditions for capacity building for Host Nation
3. Deter the spread of Extremist factions
4. Reduce territorial disputes
5. Reduce the impact of other international actors

So What: NATO is viewed as a stabilising force and the primary global security actor.

Draft Operational Mission

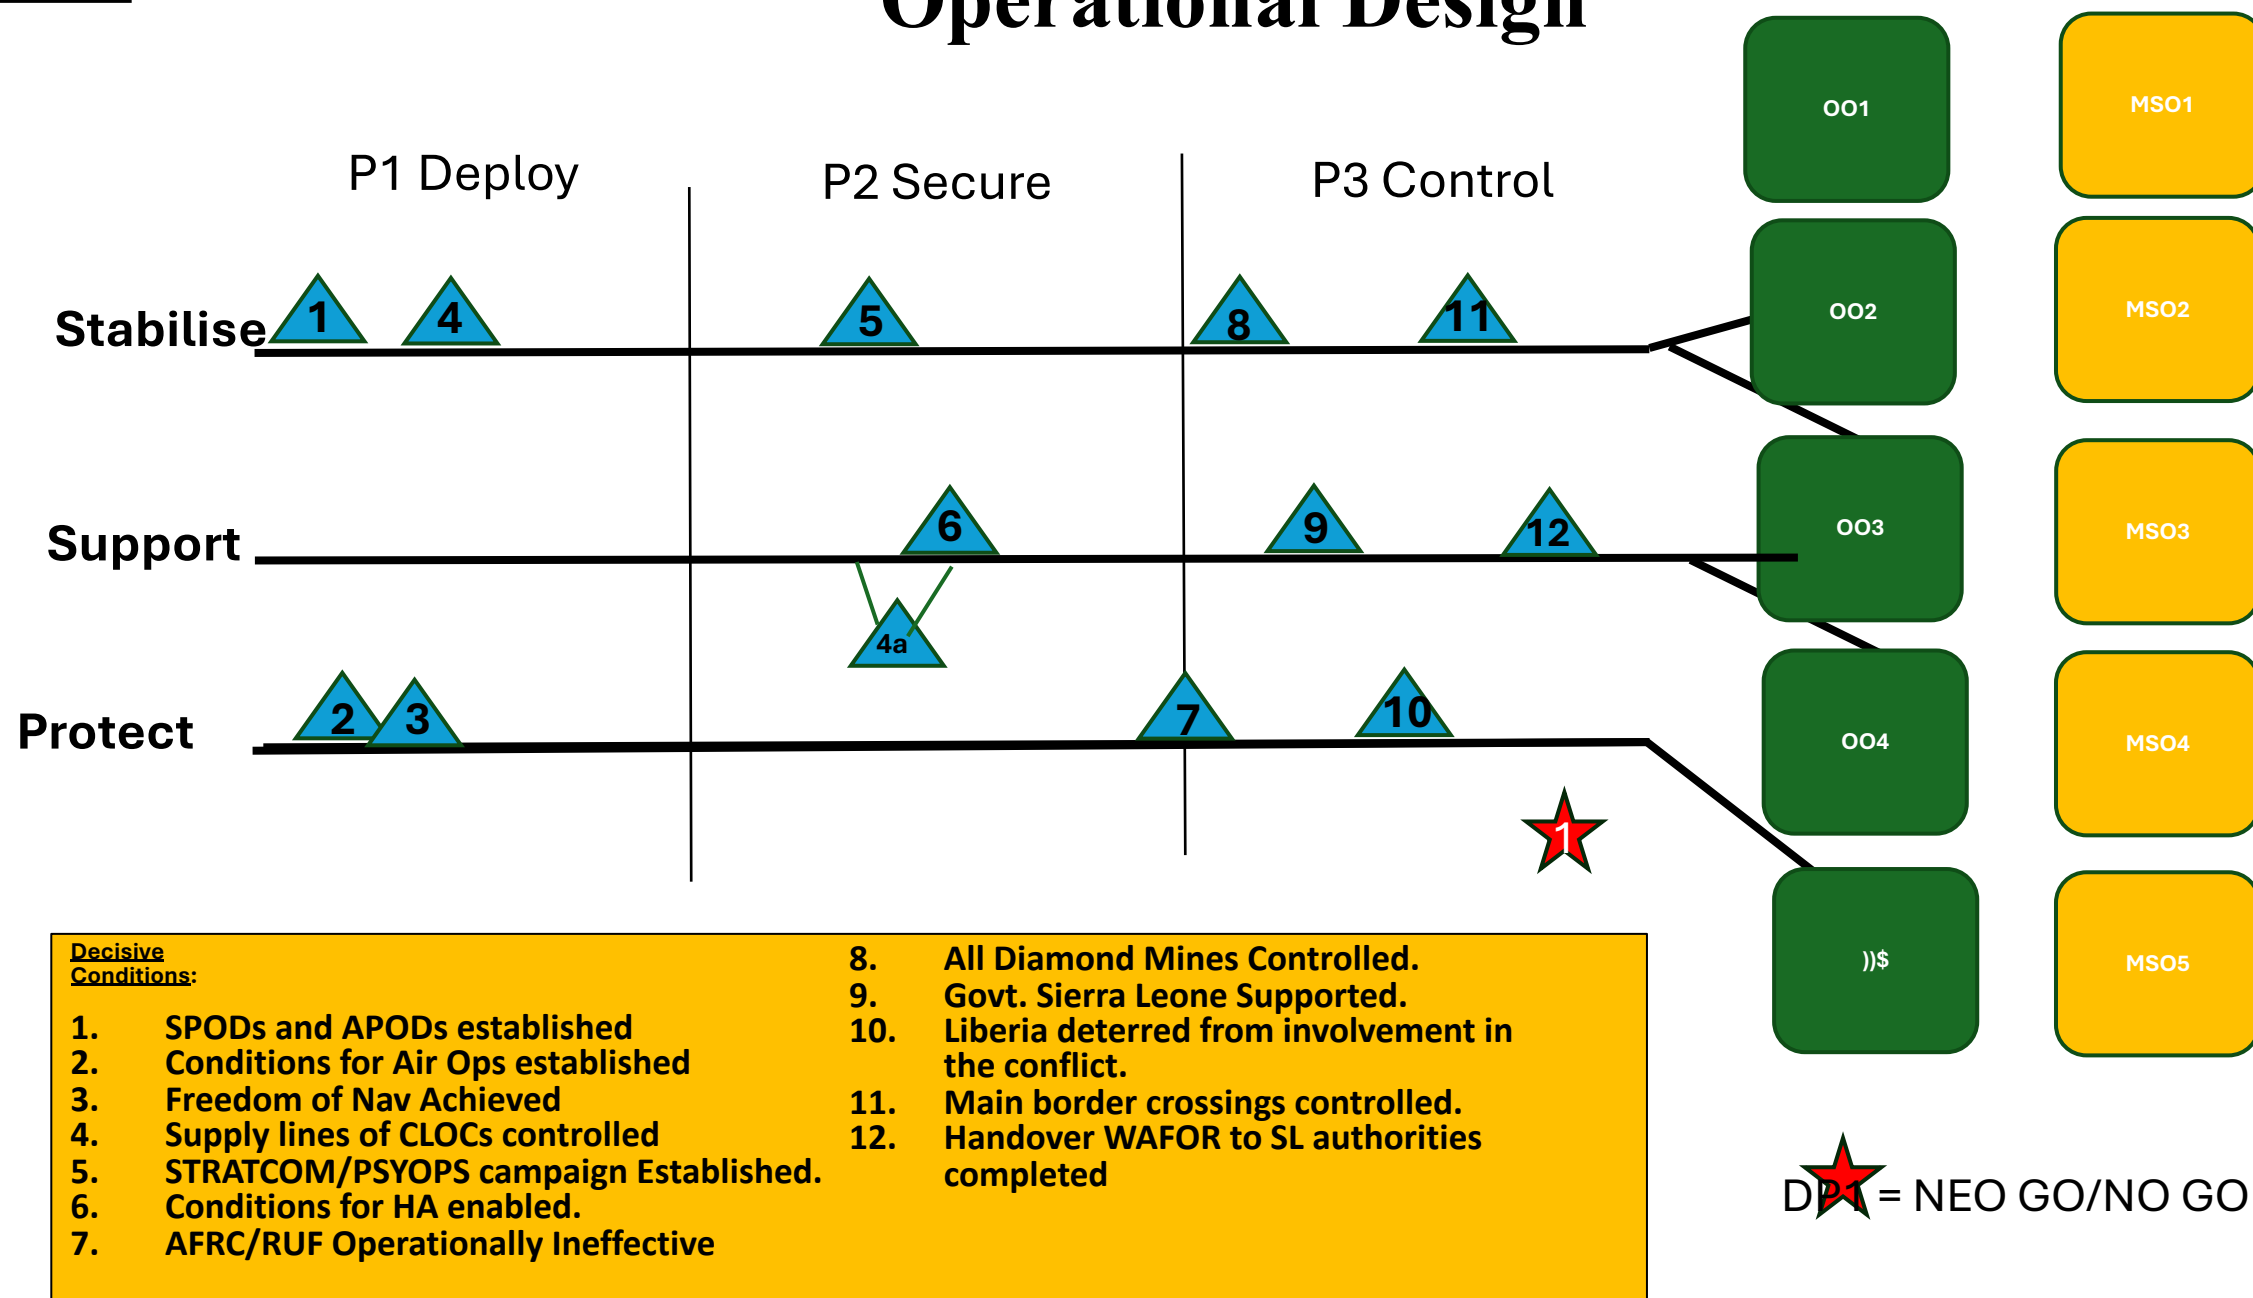

1. CJTF will deploy IOT deter IRS and adversaries. Assist IND to deter and defeat external aggression and disrupt ISR operations from D-Day.
2. CJTF will set the condition for NEO, will support IND in restoring internal security, and provide FOM for IC and HA.
3. CJTF will set the conditions ICCW IND for FoN in the Malacca Strait area.

Operational CoG

Objective: Deter IRS, assist in the restoration of internal security, enable FoN for Malacca Straits and create the conditions for NEO.

COG: Combined Joint Task Force	Critical Capabilities (ability to....) 1. Deploy a JTF/Land Force 2. Deter/Defeat OpFor 3. Secure SLOCs/APODs 4. Enable NEO Ops 5. Operate alongside IOs/NGOs 6. Conduct Influence Ops
Critical Vulnerabilities 1.1.1 Rugged terrain & effects of Wx 1.1.2 Submarine capability of OpFor 2.1.1 Complexities of our own C2 3.1.1 Piracy 5.1.1 Conditions for HA not present 6.1.1 Disinformation 6.1.2 Cyber capability of OpFor	Critical Requirements 1.1 Naval Component 1.2 Effective C2 1.3 Amphibious Force 1.4 Land Force 2.1 Sufficient Combat Power 3.1 Sufficient Naval Capability 3.2 Sustainment of Forces 5.1 Liaison teams 6.1 PSYOPS Teams

Operational Design

The democratically elected government is restored. Control over economic resources and infrastructure is returned to the Government of Sierra Leone. Sierra Leone's relations to the regional and global society have returned to normal peaceful relations. Peace and security in the region is restored and the sovereignty and territorial integrity of Sierra Leone is preserved. of access to/from the IC.

It is my intent is to restore international peace and security in the Malacca Strait region to prevent escalation and widening of the conflict. Therefore, IOT achieve this, the NRF will deploy to S SUMATRA NLT 30 MAY 2024. The NRF will liaise with INDO Forces to DEVELOP conditions to prepare for the deployment of CJTF.

The CJTF will consider operations ICCW NRF and Indo forces to SEIZE and HOLD APOD and SPOD in IRS controlled area allowing break out operation to DEFEAT IRS forces in N Sumatra and RESTORE Gov of Indo control over the entire area of Sumatra.

Complementary Non-Military Actions

1. Info-Ops Campaign: Civilians are informed
2. Liaison with local media: Launch PSYOPS campaign
3. Ensure evacuation routes are kept open
4. CULAD: key leader engagement
5. Cluster: Coordinate with humanitarian actors

So What: Importance of Soft Power for the overall influence operation

MARITIME

1. Secure SLOCs and maintain Freedom of Nav through the Malacca Straits.
2. Enable deployment of CJTF Land Force.
3. Ability to provide strategic lift using NATO & Merchant assets (STUFT).
4. Ability to conduct Replenishment at Sea (RAS)
5. Supporting CJTF LCC during Phase II / III.
6. BPT assist with HADR / NEO as required.
7. Ability to conduct interdiction operations (piracy/narcotics etc.)

So What: Enable CJTF to achieve all NATO Operational Objectives therefore enabling the fulfilment of NATO's Strategic Endstate.

LAND

1. Take over as lead component once SPOD secured
2. Secure APOD / SPOD.
3. Conduct Psyops and Info Ops Campaign
4. Establish and Secure LLOCs
5. Deploy within 5 Days and commence operations
6. Provide Training, Mentoring and accompanying to IND forces
7. Conduct operations to disrupt IRS

So What: Enable CJTF to achieve all NATO Operational Objectives therefore enabling the fulfilment of NATO's Strategic Endstate

AIR

1. Provide Recognised Air Picture
2. Provide intercept capability
3. Provide ISR
4. Provide logistical lift
5. Conduct SIGINT/ELINT
6. Conduct CASEVAC
7. Provide Theatre Missile Defence

So What: Enable CJTF to achieve all NATO Operational Objectives therefore enabling the fulfillment of NATO's Strategic Endstate

6. Initial Force/ Capability Estimate

a. Forces Available for Planning Purposes

- 1) No change from the table of forces (STRAT WNGO)
- 2) Increased STRATLIFT
- 3) Medical Support (to include in theatre MEDEVAC), Tactical Air Transport (ITAS) at increased readiness to support deployed units.
- 4) Combined Air Ops at increased readiness to support Fr Forces & Log effort.

6. Initial Force/ Capability Estimate

Estimate of Forces/ Capability Required – NRF

SOTJ5

Land Forces	Maritime Forces	Air Forces
1 X Infantry Brigade (5 Bns: 2 Mech Inf/ 2 Airborne + 1 Lt Inf)	1 X NATO Task Force	1 AEW Squadron
	Maritime Patrol Aircraft Detachment	1 AIR/GRND SURV DET (AGS)
Special Ops Forces	Mine Counter Measures Task Group	1 TRX (AAR) SQN
4 SPEC OPS TASK GPS	Intelligence Gathering Auxiliary Vessel	2 ADX SQN / 1 TMD BN / 3 FBX SQN
	Replenishment Oiler	1 EW SQU / 1 CSAR
Phycological Ops Forces	Combat Stores Ship	1 ESJ SQN
PSYOPS COY		1 AAR Squadron
		3 AIRBASE SPT
Joint Logistics Support Group	Initial Follow on Forces (Deterrence)	2 APOD OPS GP
Logistics Base Package	1 FBA SQN (-)	1 Tactical Air Lift Squadron
RSOM-I Units	3 FBX/ADX SQN	2 UAV Platoons
	1 EW Squadron (SEAD)	1 ESM Detachment

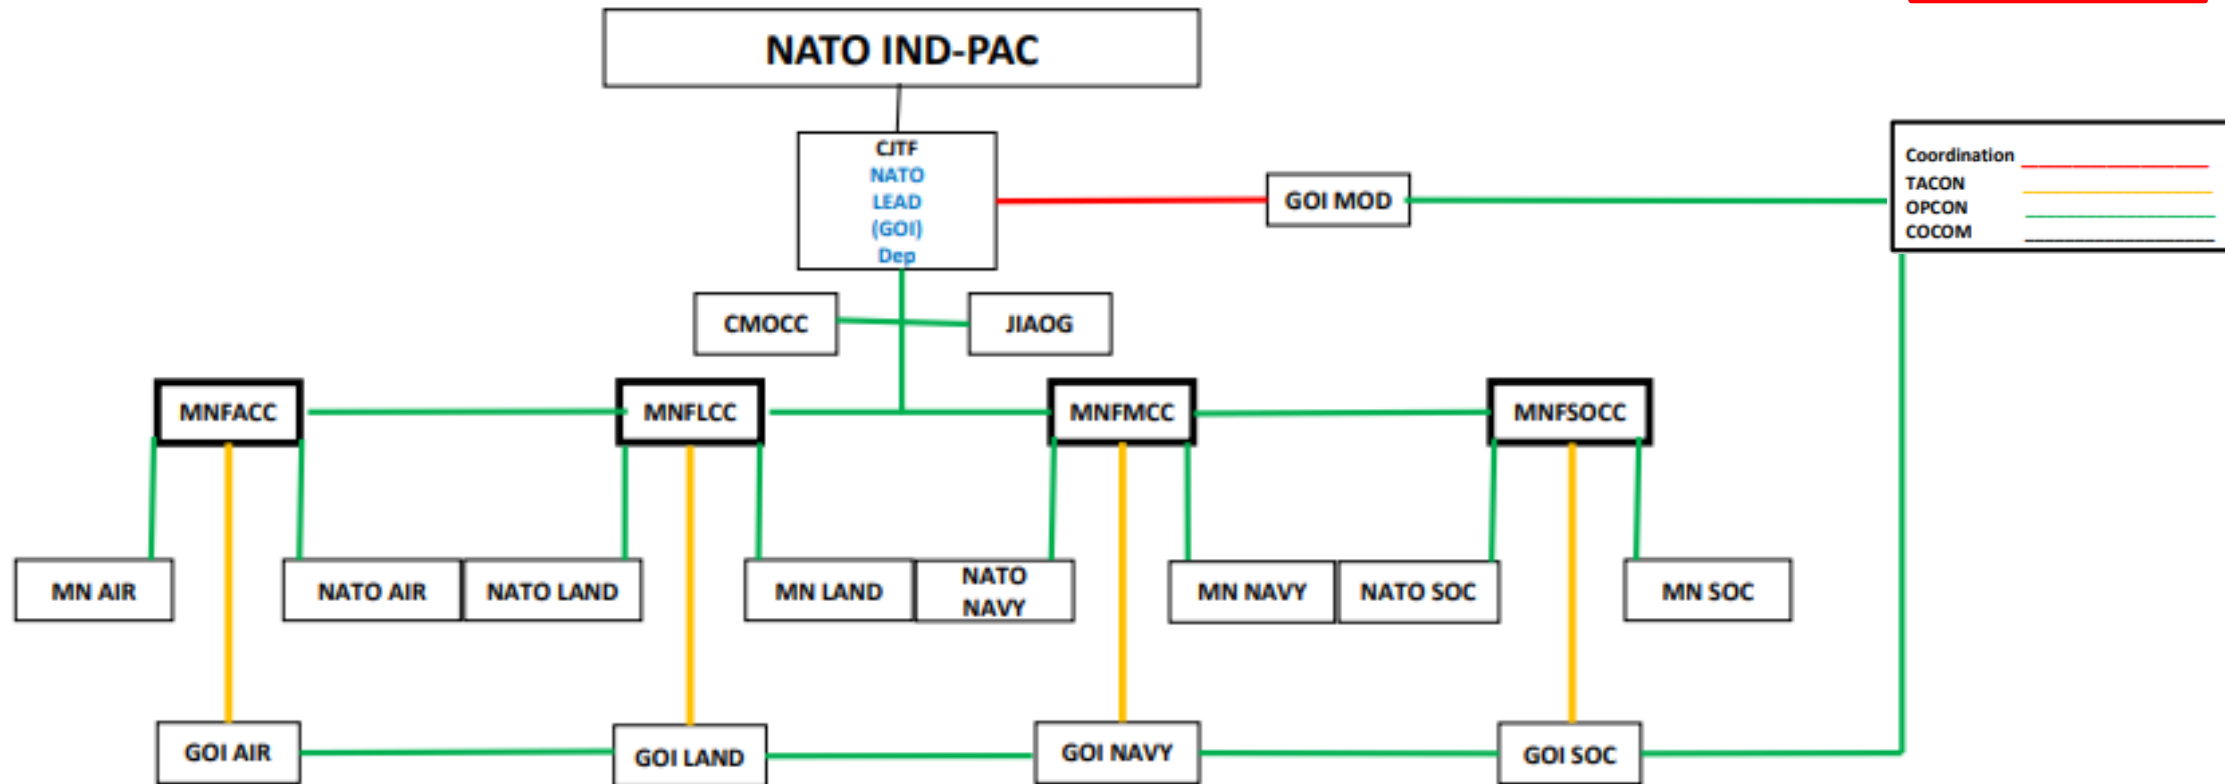

6. Initial Force/ Capability Estimate

Estimate of Forces/ Capability Required – NMF

SOTJ5

Land Forces	Maritime Forces	Air Forces
3-4 BDES	NATO Expanded Task Force (-)	AAEW Squadron
ENGR BDE	Amphibious Task Force	AIR/GRND SURV DET
CIMIC GP	Mine Counter Measures Task Group	2 TRX/TRO/TRI (AAR) SQN
HELO TRANS	3 x Replenishment Oiler	2 ADX/ADR SQN
HELO ATTACK	2 x Combat Stores Ship	2 FBX/FBA SQN
Special Ops Forces		4 SAM M/H BN
2 SPEC OPS TASK GPS		2 TMD BN
		SHARED EARLY WARNING
Phycological Ops Forces		2 CSAR Detachments
PSYOPS TF		1 ESJ/ETS SQN
		2 AAR Squadron
Joint Logistics Support Group		Base Support Assets
CS and CSS Unit		

7. Command and Control

Preliminary C2 Arrangements.

- SACEUR will retain overall strategic command for the operation.
- CJTF will be delegated OPCON of deployed forces.
- COM CJTF will exercise C2 through the CCs with liaison to GOI MOD.
- Nations will delegate OPCON to COM CJTF not later than arrival in the JOA.
- National Support Elements within the JOA, including National Intelligence Cells, will operate under COM CJTF as coordinating authority.

Critical Operational Requirements

9a

Critical Operational Support and Resources Requirements

CJ5
Sustain

Critical Operational Support and Resources Requirements

CJ5
Sustain

Host Nation Support:

1. Negotiating and concluding MOU for provision of HNS.
2. Assistance by MALAYSIA, INDONESIA, and SINGAPORE within their capabilities.
3. Technical Agreements to allow NATO to use APODs, SPODs, and additional airbases.

Medical Support:

1. Medical and health service sp plans, medical evacuation plans, and preventive plans ICW HN authorities.
2. Establishment of principal components of op health care:
 - a. Medical Force Protection, Emergency Medicine, Primary Health Care,
 - b. Secondary Health Care, Evacuation.
3. Medical Readiness - with force strength and assessed risks.
4. Medical Support in pre-deployment preparation and deployment at RSOI process.

So What: Critical need for a robust sp mechanism, strategic partnerships with HN and a developed level medical facilities

Pre-conditions for Success

1. Government of INDONESIA not in a state of collapse
 - a. INDONESIAN economy assisted (energy reserves and infrastructure)
 - b. Sovereignty and territorial integrity preserved
 - c. Access to region by air and sea secured
2. Timely provisions of adequate forces by Troop Contributing Nations
 - a. All TCNs to confirm NATO Main Force availability within 14 days with NTM at 45 days
 - b. Functional C2 structure for all 9 TCNs, cognisant of national caveats.
3. Availability of sufficient strategic transport capacities
 - a. No Strategic Air or Sea Lift capability listed.
 - b. Civilian Ships and Aircraft may be required.
4. Provision of Strategic Deterrence Assets
 - a. Deployment of aircraft carrier to be expedited if possible.
 - b. Consider increasing Attack Submarines and ASW presence to deter IRS submarines.

So What: The timelines and availability of strategic-level assets need to be confirmed and altered as soon as practicable, as outlined above.

Rules of Engagement / Use of Force

1. ROE Purpose
 - a. De-escalate situation
 - b. Self-protection NATO Fces
 - c. Targeting AJP3.9
2. NATO ROE in/over the territory and territorial waters of IND, MAL, SING and Malacca Straits
 - a. SOFA agreements with IND Gov is being drafted as a priority
3. Deconfliction required between NATO ROE and UNCLOS 3 and use of force PoC, EW, CW, A2A missiles, info ops etc. drafted and distributed in advance of Phase1
4. National Caveats are a constraint
 - a. Command authority, operational flexibility, interoperability
 - b. C2 issues can be mitigated with close coordination with NATO partners LEGAD
5. Consider reviewing and amendment of ROEs prior to moving to each phases of campaign
6. All NATO actions underpinned by Article 51, Chapter VII of the UN Charter and IHL

So What: Integration, coordination, training, exercises and clear STRATCOM essential in ensuring use of force and ROEs are understood, implemented and monitored throughout all campaign phases. Functional C2 for ROE compliance is essential for mission success
PG – Review of ROEs to take place in advance of phase change. Subcommands requested for recommendations
PG – Communicate ROEs to NATO, HN, IOs and IRS

GENAD

Planning for:

1. Needs and Rights of all Genders within the Campaign
2. Inclusive Environment effecting the overall success and sustainability of the Campaign.
3. Specific Gender sustainment
4. Effects/Actions from Gender Perspective
5. Advisory and Support
6. Monitoring and Evaluation

Core Message: NATO stands with Indonesia in its fight to defend its independence from internal and external threats. This partnership ensures vital shipping lanes remain open and contributes to regional security. Military actions will target rebel groups, aiming for their isolation and ultimate defeat. The goal is for Indonesia to regain full control of security in Sumatra, restoring peace and stability to the region.

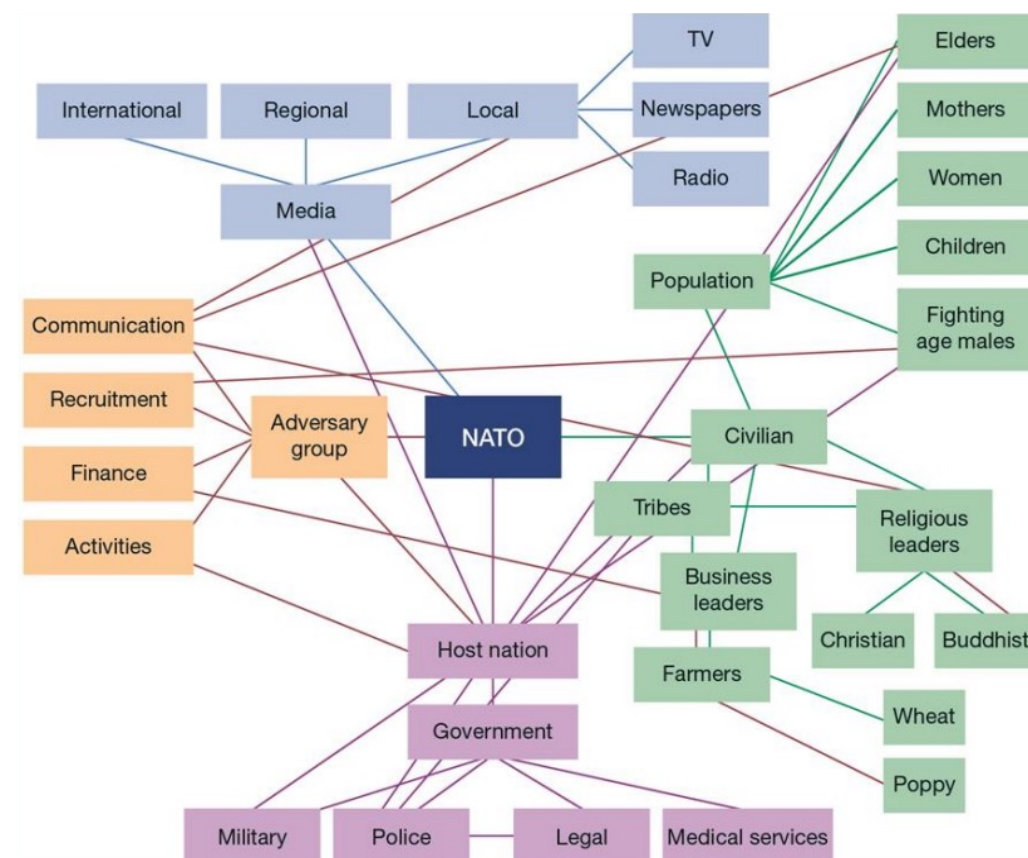

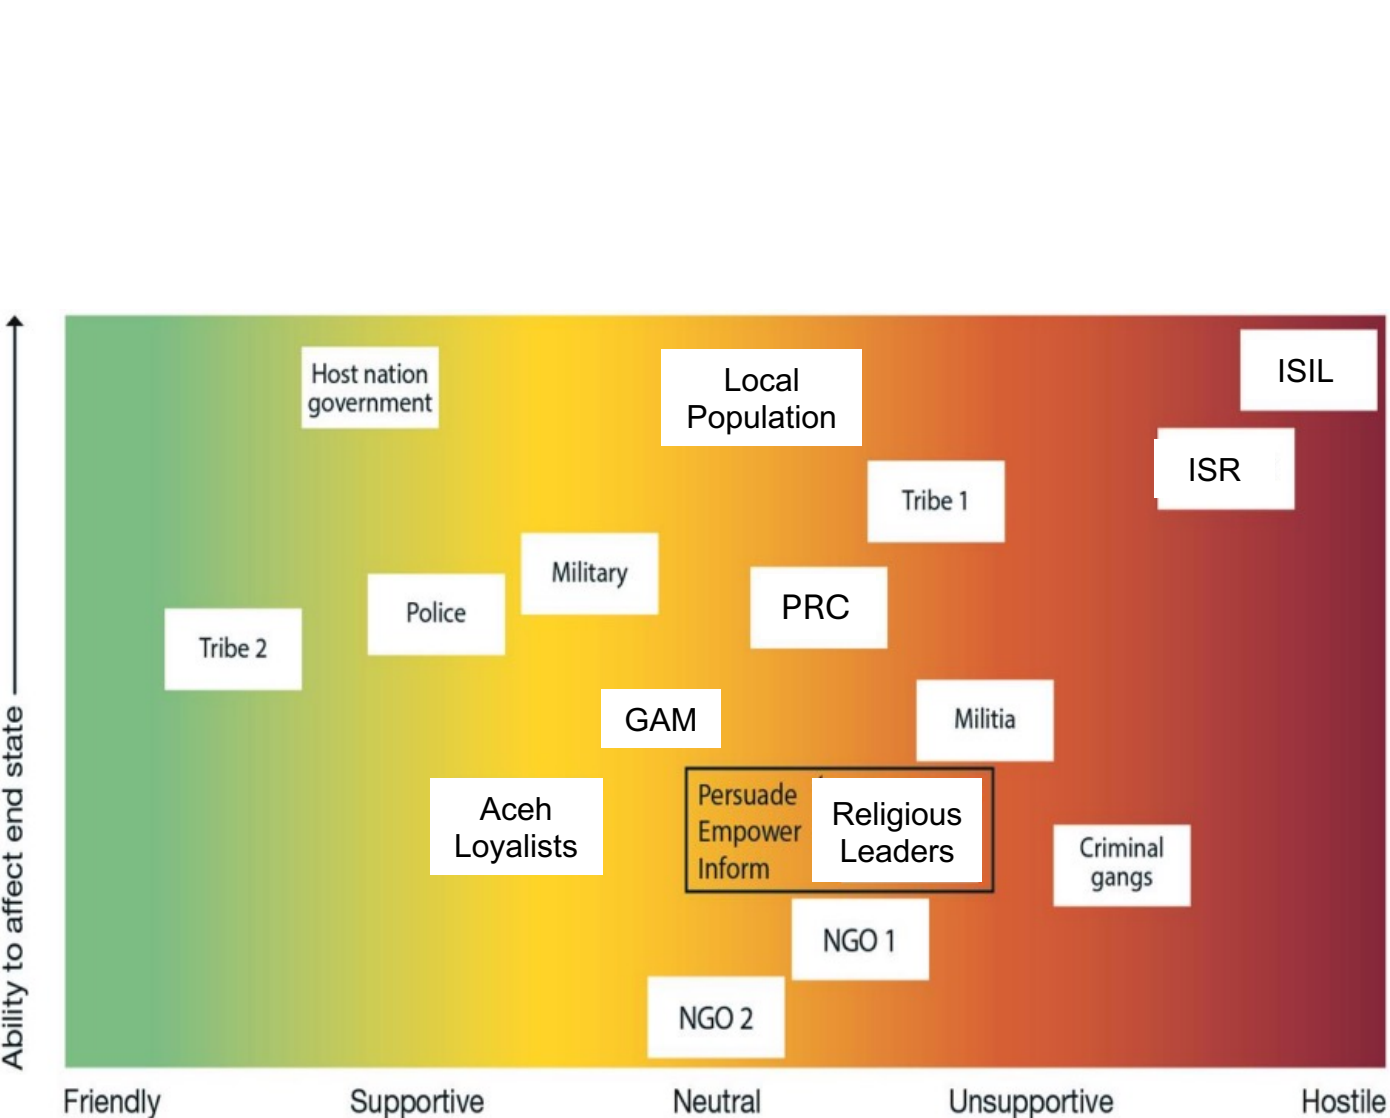

Themes:

- IRS is illegal but dialogue is essential.
- Coalition is here at the request of GoI and to assist the local population.
- IRS is aligned with Al-Qaeda, ISIL and terrorism (in order to delegitimise their status and ambitions for regional and international recognition).

STRATCOM Key Messages

1. IRS is an illegal entity and occupying Sumatra
2. Gol will restore order to Sumatra
3. Gol and its partners will ensure FOM in Malacca Straits
4. Coalition is here to support the Gol, the local population and the UN
5. Disinformation
 - a. Risk to the own forces and local polpulation was identified

Campaign Plan and Audience Analysis

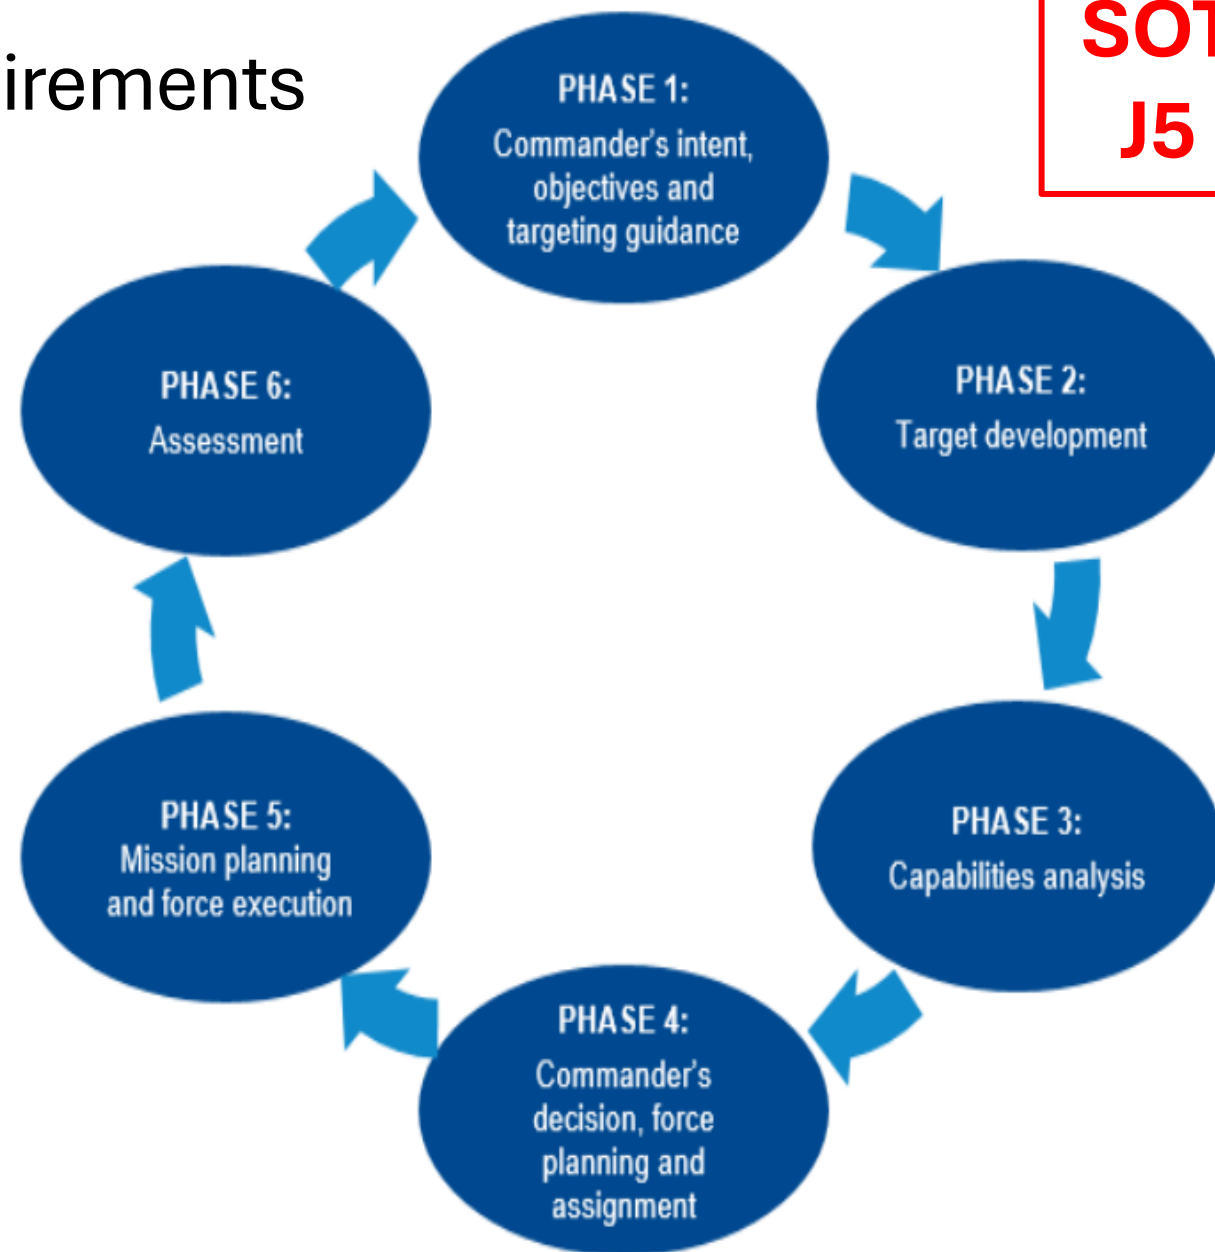

9. STRATCOM/Information Strategic Methods, Effects & Objectives

Target Audience	Method(s)	Effect
Sumatra Population	KLE	Reassure
	Coalition Media Operations	Reassure
International Audience	International media	Reassure
China	International Media	Reassure
	Mil-to-Mil engagement Pol-to-Pol engagement	Reassure
Aceh loyalists/GAM	Sumatra TV, Radio and Newspaper International media	Reassure
	KLE	Reassure, Influence, Compel
IRS military Forces	Sumatra TV, Radio and Newspaper	Influence, Compel
	International media	Compel
Hasan loyalists	Sumatra TV, Radio and Newspaper	Influence, Compel
	International media	Compel
COALITION Domestic Audience	Domestic and international media	Reassure

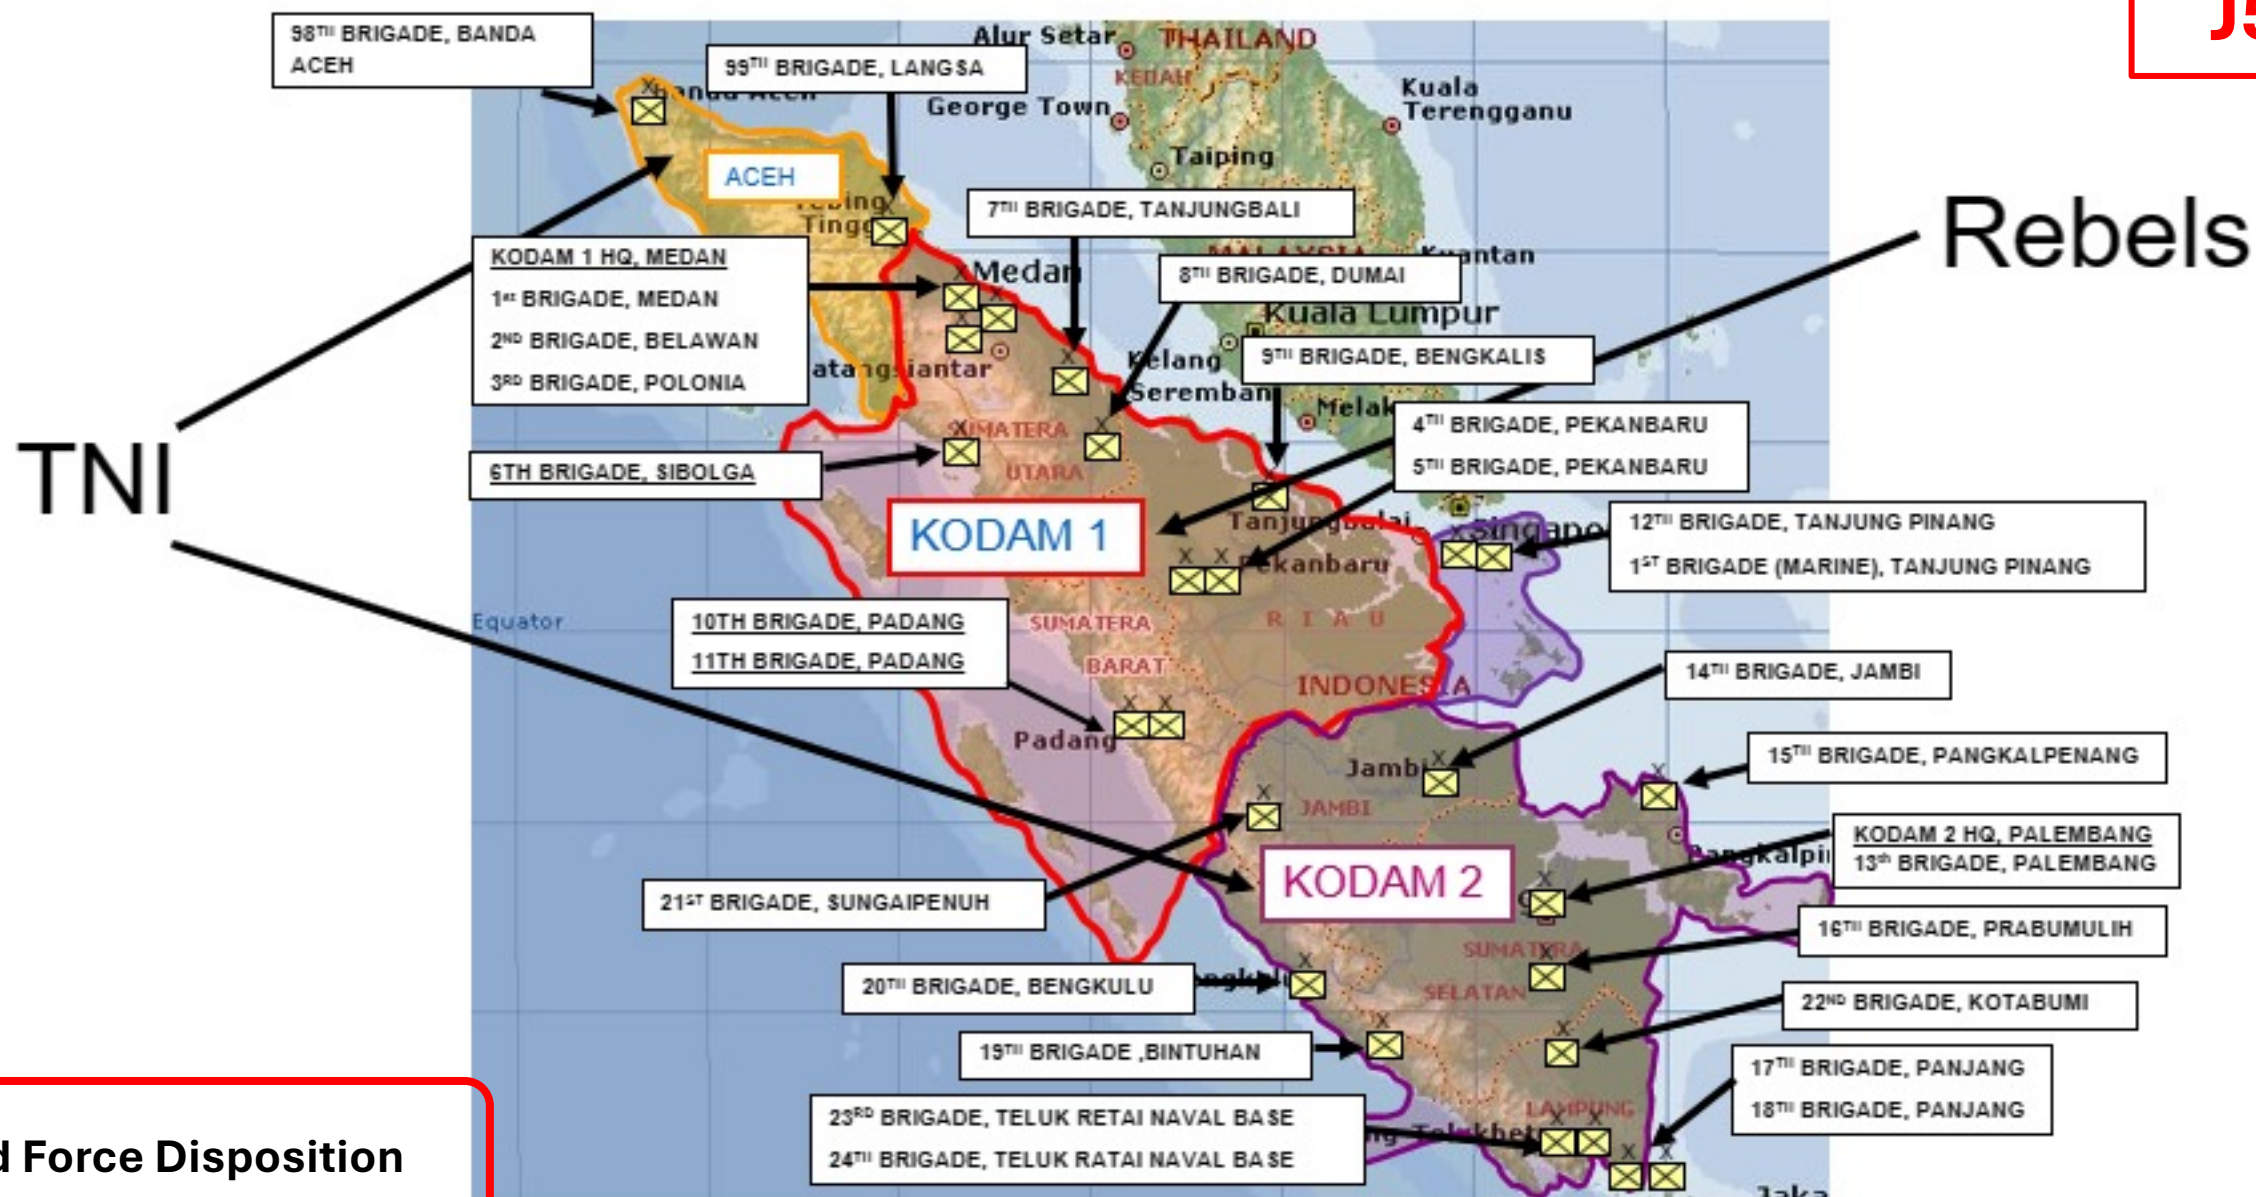

Other Critical Operational Requirements

1. The JTC translates strategic and operational level direction and guidance into tactical level activities that service our targeting priorities
2. Target List

J5**

NATO's Joint Targeting Cycle

**MEDAN**

- (12) MiG-21P
- (8) F-16A

Rebels

PEKANBARU

- (12) Su-30MKI
- (12) F-5E
- ALL MPA/TRANSPORT ACFT
- ALL ROTARY WING ACFT

Rebels

PALEMBANG

- (12) MiG-29K
- (12) Su-27
- (8) Su-25

TNI

Maritime Disposition

SOT
J5BELAWAN

- (2) Type 209 SS
- (3) Van Speijk FFG
- (1) Fatahillah FFG
- (1) Claud Jones FF
- (4) Kapitan Patimura FF
- (1) Dagger PTG

TANJUNG PINANG

- (1) Ki Hajar Dewantara FFG
- (1) Tribal FF
- (2) Kapitan Patimura FF

Navy Base

ROLAND SAM Site

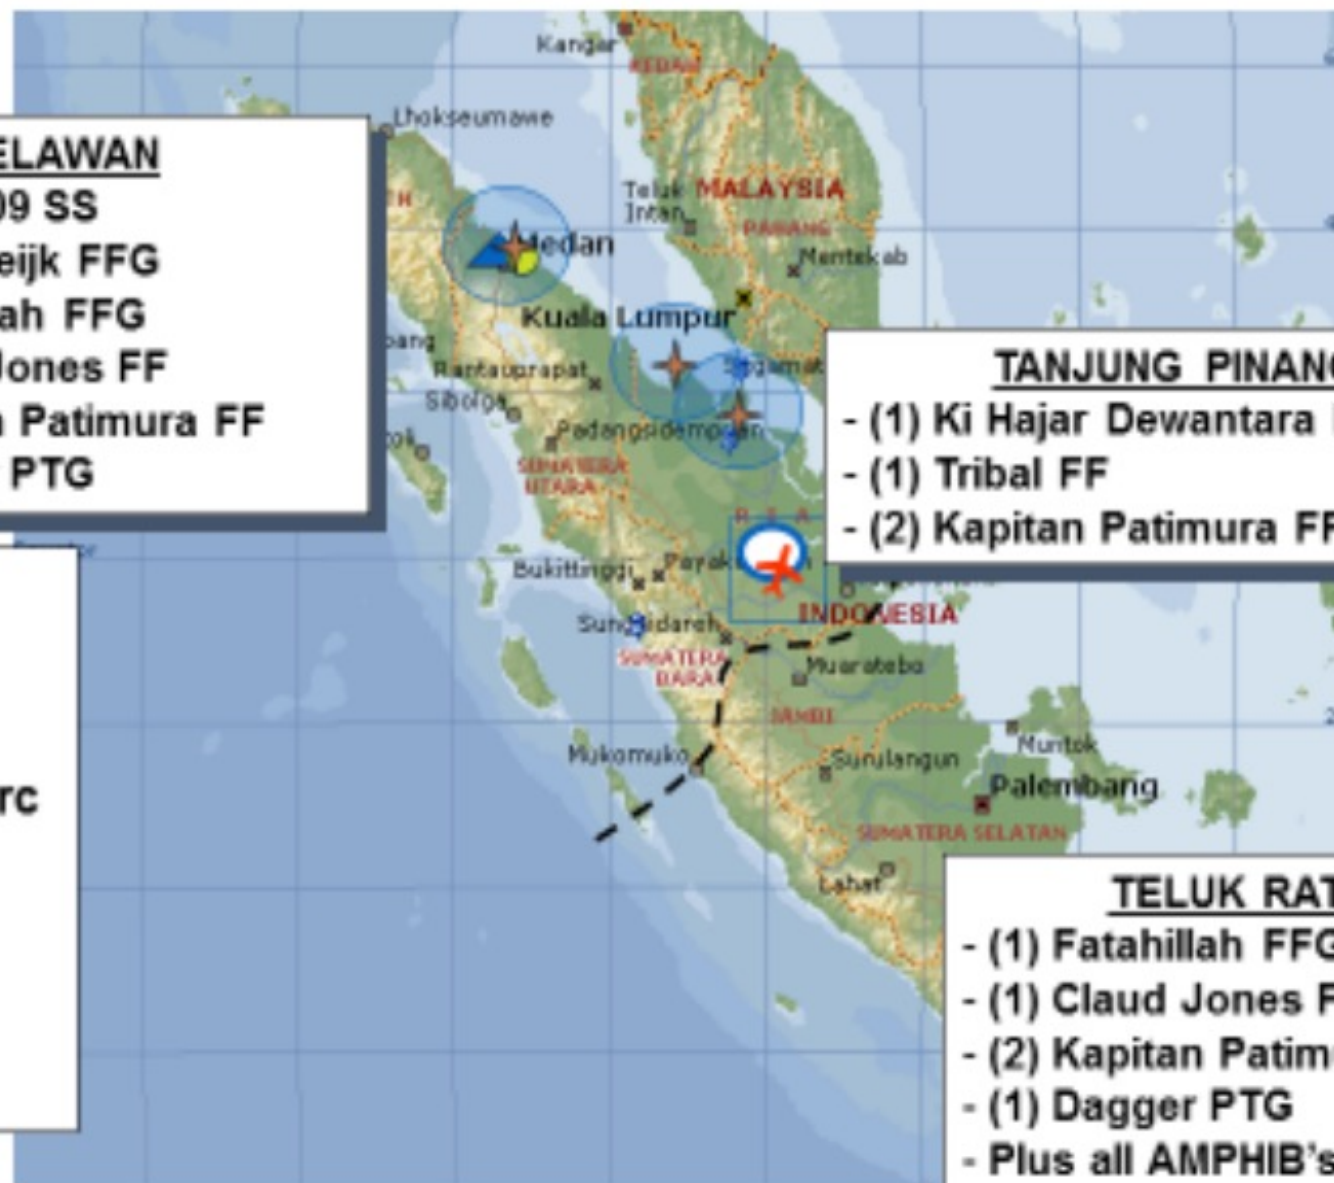

C-802 CDCM Site and Range Arc

Suspected Mining

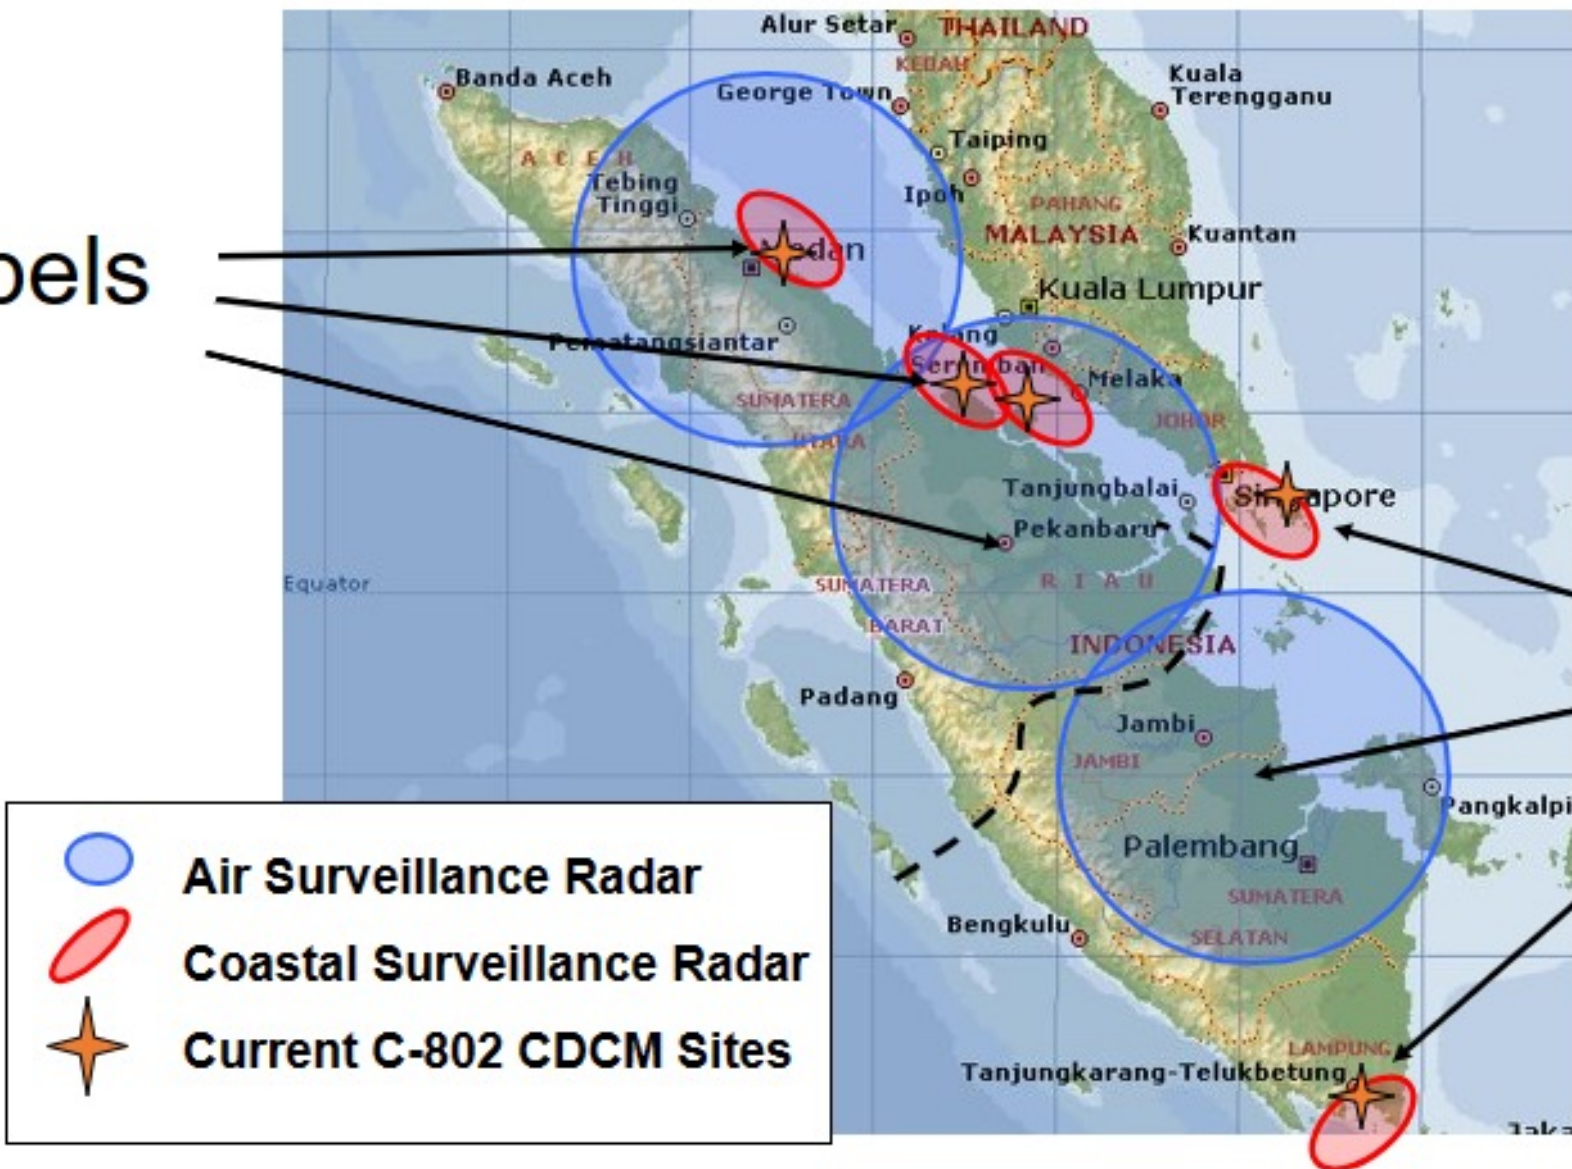

Rebel Naval Air Station

TELUK RATAI

- (1) Fatahillah FFG
- (1) Claud Jones FF
- (2) Kapitan Patimura FF
- (1) Dagger PTG
- Plus all AMPHIB's

TNI

Rebels

TNI

- Suspected in central mountains
- At least two operational camps
- Indonesian recruits
- Arab leadership
- Arab cadre

SUMATRAN PETROLEUM INDUSTRY

SUMATRAN NUCLEAR FACILITY

--Nuclear facility located in central Indonesia at DUMAI

- Facility completed in 2008
- Reactor never started due to lack of fuel rods
- GOI maintained facility
- Was working to acquire fuel rods before IRS secession

•Nuclear
Reactor
facility

•Fuel
processing
facility

KEY TRADE PORTS

1. NATO RESPONSE FORCE (AT 5 – 45 DAYS NTM)
2. NATO MAIN FORCE (AT 45+ DAYS NTM) – 14 Jun

Planning timeline

NMF DEPLOYABLE NST 14 JUN 24

NRF DEPLOYABLE NST 30 APR 24

Phase 4a & 4b analysis 26 APR 24

SACEUR OPLAN,
NAC ACTWRN &
FAD

MAB 24 APR 24

CoA Decision brief 25 APR 24

23 APR 24 SACEUR SPD

22 APR 24 PHASE 1&2 ANALYSIS

22 APR 24 SACEUR STRAT ASSESSMENT AND STRAT WNGO

So What: CURRENT OPP TIMELINE = NRF MAY BE DEPLOYED TO FORWARD STAGING AREAS
BETWEEN 30 APR 24 – 14 JUN 24

Requests to be Submitted to SACEUR / SHAPE

- Targeting List
- MOUs for HNS TBC
- Tech Agreements with HNS TBC
- SOFA with partner nations

Planning Guidance to Staff

1. Opposing COA's to develop
 - MDCOA
 - MPCOA
2. Criteria of COA development and selection
 - Identify the ME for NRF
 - Identify the SOM for NRF
 - Identify ME for CJTF
3. Broad terms on COA's to develop

- IRS will IMPEDE our movement and OBJs
- **BLUF:**
- We need to DEPLOY rapidly, utilise Joint forces, use audacity and concentration of Force

- A. Operational Framework
- B. Provisional Missions for Subordinate Commanders
- C. Preconditions for success
- D. Proposed Planning Guidance
- E. ROE Requirements
- F. Additional CRMS
- G. Submissions to SACEUR/SHAPE

Seek from Commander.

- a. Commander's Initial Intent
 - 1. Commanders Planning Guidance
 - 2. Guidance to Planning Staff
- b. Direction to Subordinate Commanders
- c. Additional COM Guidance
